Lionwood Virtual Sing

During the summer holidays, we will be having a Virtual Big Sing here at Lionwood. To take part, all you will need to do is film yourself singing a specific song, and send it in to us to be put together in one big video with all of your lovely voices and videos.

What you need to know

Over the next few weeks, a video and instructions will be uploaded onto Class Dojo. This will be a video with a song chosen by the school, with lyrics, and a guide voice to follow when singing along. There will also be a link to where the videos can be sent to.

It is really important that when you film yourself singing, you are in a quiet place and are wearing headphones so the music doesn't get recorded with your wonderful voices. Landscape videos only please.

You can send in multiple videos if you like, which can have different parts of the song being sung.

If you don't wish to film yourself singing, you can also just send in an audio clip of your voice that will be added too.

Feel free to have fun with the video. Find a funny place to film or do a funky dance!

The more people that participate the better, so please give it a go and join some members of staff in the first Virtual Lionwood Big Sing.

We will send out a text reminder when the song gets uploaded so you all know when to start.
